# **Winter Weather Impacts**

## **Tonight through Saturday Afternoon**

- **Temperatures will drop to around freezing tonight. Rain will change to snow in the higher elevations first and then transition over to snow in the valleys by dawn.**
- **Roadways will become slushy during periods of heavier snowfall, especially in the higher elevations.**
- **The heaviest snow is expected to occur around dawn Saturday morning causing reduced visibilities for travelers.**
- **Near freezing temperatures are expected late tonight with sub-freezing temperatures Saturday night and again Sunday night likely to end the growing season.**
